All elevators listed herein, unless marked by an "X", are licensed for the crop year 1957-58 as at December 1, 1957.

The storage capacity figures shown against each individual elevator include the elevator proper and all permanent and temporary annexes attached thereto as registered with the Board of Grain Commissioners for Canada as at December 1, 1957.

The managers of certain elevator buildings which cannot be licensed as elevators on account of faulty receiving scales have been granted authority to operate them as Special Annexes to specific licensed elevators. These buildings, however, are listed herein as unlicensed elevators, as they can not be used for the purpose of receiving producers' grain delivered in truck- or wagon-load lots. They are indicated by the sign "XSA".

SUMMARY OF

SPECIAL ANNEXES

TO

COUNTRY ELEVATORS

Special Annexes are buildings authorized for use for the temporary emergency storing of wheat, which can not qualify for licences as country elevators under the Canada Grain Act. These buildings are located on and off railway sites and provide supplementary storage to licensed country elevators. They are operated only by the managers of licensed public country elevators and are located at varying distances from the elevator proper.

The Special Annexes are not grain elevators and can not receive grain directly from producers. As those buildings are being used only temporarily, the undershown figures pertaining to such type of storage have not been included elsewhere in this publication except in the final summaries.

Ontario	Canadian Pacific	1	1,400,000
GRAND TOTAL - SPECIAL ANNEXES		377 £	14,952,690 £

£ 1,797,000 bushels of this supplementary (special annex) storage space is located in ten (10) buildings which are of regular country elevator construction. Such buildings, however, for various reasons can not be licensed as regular grain elevators. These ten buildings are shown elsewhere throughout this publication as "Unlicensed Elevators", as they can not receive grain directly from producers.
